

Red Tractor Farm is a family run guesthouse and gourmet cannery on the Cycladic island Kea. We own and manage an 8 acre property with an olive grove and vineyard. St. George beach is at the end of our driveway and the port of Korissia is a 5 minute walk. We have four separate guesthouses that are surrounded by gardens and fields and designed for comfort and convenience. Each guesthouse has a fireplace on the upper 'Studio' level as well as cozy built-in seating areas. Beds and pillows are all orthopedic and are all set on raised wooden platforms. Upper floors each have a kitchenette for preparing light meals with the exception of Stone Cottage which has a full kitchen. Lower floors have one or two bedrooms each with w.c./shower. The guesthouse upper and lower levels can also be rented separately.

The ferry boat from Lavrio to Kea is only one hour. Our guesthouse is open year-round. **Red Tractor farm is great for weekend getaways from Athens and European capitals, Lavrio is only 20K from the Athens International Airport and less than an hour from central Athens.** We will have your fireplace ready for your arrival on Friday evening. For Saturday and Sunday there are fabulous walking paths traversing Kea, great hikes to archeological sites, tavernas and quiet surroundings that replenish the senses. When you make a booking we will give you valid ferry times as well on tips for getting here from Athens and the airport.
